

# **WELCOME TO THE CIRCULAR ECONOMY CONFERENCE**

**HOSTED BY ETHOS SUSTAINABILITY**

# CIRCULAR ECONOMY

Join industry and research leaders to explore how circular economy principles are transforming product design, use, and reuse. This panel will discuss strategies for reducing waste, improving resource efficiency, and building sustainable supply chains. Hear from experts Prasad Jaladi, Kelly Albus, Philip Samson, and Victoria Yip on real-world approaches to implementing circular systems. Learn how innovation and collaboration can drive industries toward a regenerative economy.

## MEET THE SPEAKERS

**Prasad Jaladi**

Nonprofit leader focuses on circular economy principles and sustainability philosophy

**Kelly Albus**

Professor specializing in applied sustainability and circular economy practices

**Philip Samson**

40+ years of experience in management and ICT, accelerating sustainability practices through coaching

**Victoria Yip**

Leads SET, MAX's technology division, helping artists capture fan data and deepen audience relationships

# SUSTAINABILITY IN EDUCATION

Explore how sustainability is being integrated into education. This panel discusses strategies for bringing real-world environmental challenges into classrooms through curriculum, research, and experiential learning. Hear from educators and a student guest on equipping the next generation to address global sustainability challenges.

## MEET THE SPEAKERS

**Naomi Meier**

Professor in  
Rehabilitation and  
Health Services

**Jennifer English**

High school educator,  
expertise in  
sustainability  
education

# PHILOSOPHY OF SUSTAINABILITY

In this keynote, Mr. Prasad Jaladi explores the deeper philosophy behind sustainability, examining values, ethics, and long-term thinking. He'll challenge attendees to think beyond technology and policy, focusing on how mindset, culture, and leadership shape a sustainable future.

## MEET THE SPEAKER

**Prasad Jaladi**
